

At any time during the flow when Alexa is expecting input from you, you can say "Cancel", and she'll say "Task Messenger signing off. Good bye". Or you can simply say 'quit' to terminate the skill without an acknowledgment.

Alexa will summarize the total number of pending tasks (the tasks in your 'to do' list) and total number of tasks you are working on (tasks in your 'doing' list)

[Saying 'yes' will prompt Alexa to read you the contents of the task. Saying 'no' will advance to the next task in the list to be read.]

Saying 'yes' assigns this Alexa device to you. Next time you start Task Messenger, Alexa will know who you are.

SKILL GUIDE

Visit www.TaskMessenger.com for more video tutorials.

At any time during the flow when Alexa is expecting input from you, you can say "Help", and Alexa will tell you about Task Messenger. Note that invoking help will trigger the entire dialog flow to start over again.
